Tim, I am thinking that next Wed would be good timing for this high level conversation. We should have seen our HQs program office comments on our draft comment letter and so will have a better sense of where we will be landing. Does that work for you? Johanna and I can both be available at 10, 2 or 3:30- would any of those times fit with your schedule? Thanks,

Ayn

Tim – Thanks for asking – certainly a very busy first week. Ayn is keeping the lead on the Montana Nutrient variance rulemaking given the timing and complexity of issues. I would be happy to have a call to begin getting up to speed so let me check in with Ayn on a good time.

Johanna –

How is your first week in the new job going? I thought it might be good to have a high level discussion about EPA potential comments on Montana's Nutrient Variance rule making and about individual nutrient variance levels for the city of Whitefish. Please let me know if you have time tomorrow or next week to talk on the phone.

Thanks,

Tim
